RE: Velcro Mfg. Facility Expansion
Somersworth, NH
Project No. 12643

Dear Frank:

As I reflect back over the past years activity related to the Velcro Somersworth Project it has been reinforced to me there were numerous parties and personnel who have made this expansion project a success for Velcro and Pizzagalli.

Your team's attention to detail, schedule and the quality of installation of your field personnel is one of the main items which helped make this project successful. Your planning and acquisition of materials definitely kept the site activities moving forward. Even with some of the hick-ups you and your team worked with Pizzagalli and collectively collaborated resolutions and moved forward with the project progress.

I would like to acknowledge your company, your site team management, and site team's individual support, dedication, professionalism, and your cooperation in the successful completion of the Velcro USA Inc expansion.

Sincerely,

A handwritten signature in cursive script that reads 'Steven Heyborne'.

Steven Heyborne
